Gardeners should contact the Garden Coordinator if assistance is required with the gate code.

Please close the gate(s) behind you once you enter the garden and make sure the gate is securely locked when you exit the garden.

Call 911 if you get injured, experience chest and arm pain, dizziness, lightheadedness, or heat-related illness.

Gardeners should not pick produce from another gardener's raised bed without permission from the garden raised bed owner. Notify the Garden Coordinator about any missing produce issues, vandalism or unauthorized activities.

To prevent damage and tripping hazards, water hoses used by gardeners **MUST** be recoiled and stored against the garden raised bed in a neat manner when not in use.

After planting, gardeners are strongly encouraged to cover their raised bed with straw or mulch as an excellent method of weed control and water conservation.
